Fun fact: there’s no any AI used and the translator was used only for words «Цифровая грамотность»
AND!!!! Non of this is real. Just have fun playing this presentation. Sounds really weird though..

Help those dudes

They’re definitely need one

Hi, my name is Dmitriy Kuplinov, and I have some problems here. See, me and my friends Markiplier and JackSepticEye are struggling with getting into the digital literacy. And we need some help with it. Can you like idk... Explain a bit? We all have different questions so thank you in advance

Ok bro

Eww no way I will help you

CHOICE ILLUSION!!!

Uhh, hi everyone, my name is Markiplier. I wanted to play some fnaf ransomware fan-games but I think I got an ACTUAL ransomware. It asks for 30 bitcoins. What am I need to do?

Cry idk

Send ‘em those bitcoins

Lemme take a look

Wow, dude, thanks a ton! You’re amazing. Good luck in a future and bye

Bye-bye

Hi, my name is JackSepticEye. I have a liiiitle problem.. I was streaming and one of the viewers sent me a link to a “new cool game I can play”. Of course I ended up clicking that link but nothing happened, like, literally nothing. And than that dude doxxed me online… I mean, not a lot of my personal information is unknown to masses, but he leaked my phone number and home address so I’m really worried about this. What am I need to do?

Cry idk

Lemme take a look

Beat him up

Dude, are you f****** kidding me rn?..

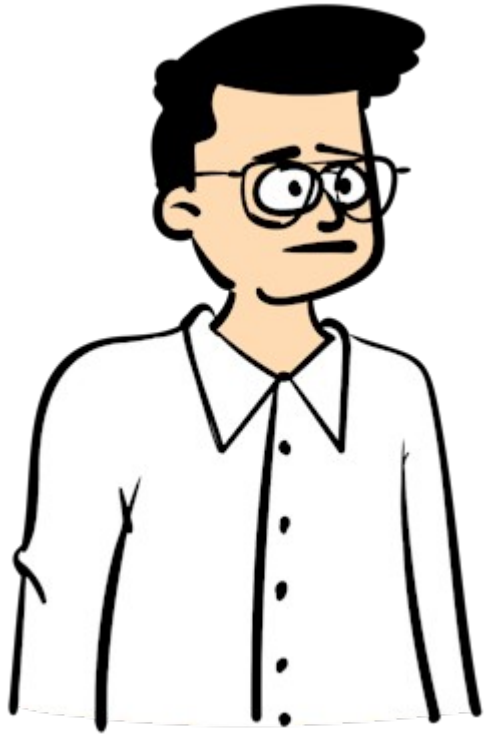
Omg dude you’re my savior. Thank you very very much, I will be more careful from now. Goodbye!

Bye!



He-he, hi everyone my name is Dmitriy. I need some of your help. You see, recently my YouTube channel was hacked BUT everything is ok at the moment, I got my account back. So, that made me think about how good my password actually is. Spoiler: it’s not. So, I came up with a bunch of passwords, can you help me to choose the most secured one? Thanks in advance.

Lemme take a look
